- Welcome/Introductions /Adoption of February 2016 EMS PI Committee Minutes: Minutes approved as written.
- Old Business
 - Travis Mitchell reported that an email was sent out in mid-February proposed targeting practical objectives for the year:
 1. Application of Capnography in the care of suspected Sepsis patients
 2. Pull suspected Sepsis patient info by agency in accordance of the Regional PI criteria at the next meeting
 3. Provide list or pre-hospital run for hospitals by correlating discharge and/ or length of stay diagnosis by the July meeting

Jay Porter will try and pull data to identify sepsis type patients for the next meeting. The group decided instead of seeking ambiguous sepsis patient data to concentrate on Molly data, and pull regional information on cardiac arrest pre-hospital the percentage that has capnography applied and percentage with bystander CPR prior to arrival for the next meeting.

- New Business
 - The group decided to table the discussion about Performance Indicators in Protocols until the December meeting.
- Dates to remember located at www.tidewaterems.org

**The next meeting of the EMS Performance Improvement Committee will be June 9, 2016 @ 1630
TEMS Office- 1104 Madison Plaza Chesapeake, VA 23320**
